Introduction to finding half of an amount. Introduction: https://bit.ly/3emPX2W (**Summer Term – Week 7 (w/c 8th June) Lesson 3- find a half).** Choose an amount of objects (less than 20) and share them equally between 2 equal groups. Practise with different amounts.	Can you use what you learnt yeasterday to find half of some amounts (page 2).		Half the children at a party are girls. How many children could be at the party? Give four different answers by drawing the boys and girls at the party for each answer and then write your number sentences down. *Explain your reasoning.*	Mo is finding halves. *He says, "It is hard to find half of an odd number." (odd number examples: 1, 3, 5, 7, 9) Draw three examples of an odd number of things and try to work out what half of that number is.* Do you agree with Mo?

Recap Task: 10 in 10 Can you complete the 10 questions in 10 minutes?

What is the value of these coins altogether?	Fred planted 17 chilli seeds. Bill planted 25 chilli seeds. How many seeds did they plant altogether?	Draw a rectangle - colour in half of the shape.	What is the time?	Find ½ of 24
12 + 6+ 4 =	21 + __ = 30	7 + 18=	27 - 3 =	Make 42p in 2 ways.

English - Types of sentences

Online	Offline	Online/Offline Task available using your child's individual teams' login	Online
https://bbc.in/3drmjsk Watch and listen to the explanation of types of sentences. There are 4 kinds. Statements, commands, questions and exclamation.	Can you write a statements, a commands, a questions and an exclamation about yourself. Do not forget to use a question mark, exclamation mark and full stops.	If you're not able to print the sheet, it is also available below or you can write your own sentences.	Can you apply your sentences knowledge to complete a short quiz, to see if you can identify different types of sentences? https://bit.ly/2BnrDPY Just click on this link and it will take you straight to the quiz.

Phonics:
ie family
The sound ie has alternative spellings. Watch the link to find out all the different alternatives.

Can you write the word that matches the picture and then put them into a sentence?

Flashback: Floating and Sinking

This week we are going to be having a look back at this to see what you can remember and if there is anything new you can find out.
Your challenge is to collect a range of objects from around your house (that are all ok to get wet). Fill a bucket, bath, paddling pool or sink with some water. Before you put the objects in make some simple predictions about what you think will happen to each object. When you have done that, place each object in the water, one at a time and see what happens. As a further challenge, you could take some photos and send them to your teacher or draw a picture to show what you can see. Remember that if the object sinks, that you must draw the object BELOW the water line and if it floats draw the object ABOVE the water line. Have fun!

New Weekly learning project

Task available using your child's individual teams' login
Last week you looked at how the seaside environment has changed. This week we are looking at toys and how they have changed in your lifetime. Have a think about what your favourite toys are at the moment and what your favourite toys were when you were younger. Can you draw a time line showing your toys and from a baby until now?

Well-being

Task available using your child's individual teams' login
Listen to the story. Discuss when you have been worrying about something and what it was that made you worry?
Who might you have told that could help you and made your worry smaller? Can you draw your worry? What would it look like?
