Maths			
Online https://www.thenational.academy/year- 5/maths/describe-position-after-translation-year- 5-wk1-5 This is the last online lesson of the translation work. This includes describing, finding and translating coordinates of a shape on a four quadrant grid.	Offline A (6,5) Shauna has translated a square in the first quadrant (2 left, 4 down). Here is the translated square. What were the original coordinates of vertex D? (6,4) B The same square has now been moved to a different place on the first quadrant. Celia has given one set of coordinates for one of the vertices. Describe the translation. C D	Offline 5 4 2 1 0 1 2 3 4 5 1 2 1 2 1 2 3 4 5 Look at the triangle on the 5 × 5 grid. How many different ways can you find of translating it so that it moves but stays entirely on the grid? Try to work systematically to find all the possibilities.	Offline These three coordinated have all been translated in the same way: (,) goes to (3, 1) (, 5) goes to (4, 3) (4,) goes to (6, 1) Can you work out the missing coordinates? Describe the translation
Recap Task: Think back to last week when you completed work o Complete the task below to refresh your understand Describe the translation of Shape A to Shape B, C an	-	tedup/down.	D A
